

THREE JUDGES IN THREE DAYS

Bainbridge "Night Rider"
Case Was On Trial Yes-
terday Afternoon.

JUDGE THURMAN LEAVES

But Will Return Next Monday
to Preside in the Ren-
shaw Case.

Judge I. H. Thurman returned to
Springfield Thursday morning, but
will be back Monday to serve all of
the week.

Judge T. P. Cook presided by
agreement Thursday.

Low Johnson and David Smith
were appointed special bailiffs to
summons 200 men for the Wilson-
Chafin trial Monday.

Harry Tucker, whose trial for
grand larceny resulted in a hung
jury, was turned over by his bonds-
men.

Warren Williams was acquitted of
a charge of stealing turkeys.

T. P. Johnson, charged with mutil-
ating graves, was tried and the case
dismissed.

The case against M. D. Grubbs and
Otho Marquess, charged with setting
fire to a barn, was dismissed with
leave to resubmit.

Yesterday G. W. Southall presided
as special judge by agreement and
other commonwealth cases were tried.

Geo. Bronaugh, robbery, not guilty.

Robt. Wooldridge, Douglas Wool-
dridge, Buddy Purdue, gaming, fined
\$25 each.

Claude Dillard, grand larceny, 30
days in jail.

Herbert Crabtree, petit larceny, \$10
and costs.

Dan Harper, chicken stealing, 1
year.

Joel Phelps Polk, grand larceny,
not guilty.

Clifton Putman, cutting, \$75 and
costs.

J. W. Covington, obstructing high-
way, \$10 and costs.

Yesterday afternoon the important
case against Connie Hensley, Ross
Hensley, Henry Lamb, Miles Farris,
Clarence Farris and others was be-
gun. They are charged with being
in a party of 16 masked and armed
men who went to the house of an old
man named Shepherd near Bainbridge
the night of Dec. 9, 1915 and took out
his daughter Lena Shepherd and Jen-
nie Sharp in their night clothes and
whipped them with switches. Miss
Shepherd was on the stand at 3 o'clock.

She said she positively recognized
Connie Hensley as the man who whip-
ped her, Ross Hensley as the man
who did the talking and Henry Lamb
the one who carried a lantern. All
had their faces partly concealed with
handkerchiefs. After dragging them
from their bed and taking them 150
yards they whipped them, one whip-
ping while two held their arms out-
stretched, and then ordered Miss
Sharp to leave the country and told
her if she would behave herself she
could stay with her mother. The
women are separated from their hus-
bands and live at Salina, Kan. They
were here on a visit.

Hert Elected.
Col. A. T. Hert, of Louisville, was
elected National Committeeman by
the Kentucky Republican delegation
at Chicago, when the name of Col.
John W. McCulloch, of Owensboro,
was withdrawn in prospect of defeat.
The fight will be taken before National
Committee.

BRISK RALLY IN TOBACCO

Unexpected Rush to Market
This Week Doubles Re-
ceipts of Last Week.

Another season-end rush of tobacco
this week ran the loose floor receipts
up to more than 400,000 pounds and
prices were almost up to last week,
the average being only 13 cents less.
There was no weakness in the market,
the difference being due to the
quality of the offerings. The loose
floor sales are now double those of
last year at this time. Much of the
tobacco now coming in is from a dis-
tance and there is complaint in some
quarters that low contract sales are
being jumped and the tobacco sold
for the higher prices prevailing.

CHANGE IN GAME LAW.

Some changes have been made in
the game laws of the state. Below
will be found the old and the new
laws and a comparison will show several
important changes.

It is lawful to kill:

Quail, old law, Nov. 15 to Jan. 1.

New law, Nov. 15 to Jan. 2.

Rabbits, old law, Nov. 15 to Sept. 1.

New law, Nov. 15 to Jan. 1.

Old law—Doves, Aug. 1 to Feb. 1.

New law—Doves, Sept. 1 to Oct. 16.

Squirrels, old law, June 15 to Sept. 1.

10, Nov. 15 to Feb. 1. New law—
July 1 to Dec. 16.

BAG LIMIT—It is unlawful for any
one to kill more than twelve quail or
fifteen doves in any one day during
the open season.

Landowners and tenants and mem-
bers of their families may hunt upon
their own land only without a license.
License entitles the owner to hunt
anywhere in the State, but it is unlaw-
ful to hunt upon the land of another
without permission.

No license is required for fishing,
but it is unlawful to take or attempt
to take fish from any of the waters of
the state, except private ponds or lakes,
in any manner whatever, except with
pole and line, trot line, hand line and
set line.

FUR-BEARING ANIMALS—Unlawful
to take or kill, fox, beaver or
otter from Dec. 31 to Nov. 15. Rac-
coon, skunk, mink and o'possum,
from Feb. 15 to Oct. 1.

Trio of Operations.

Three operations have been per-
formed at the Jennie Stuart Hospital
since last report and all of the patients
are doing well.

On Tuesday Nevil Scroggins, of
Nortonville, nine-year-old son of L.
C. Scroggins, was operated upon.

Wednesday L. C. Compton, of
Bethel College, Russellville, a stu-
dent, underwent an operation.

Thursday Douglas Baker, aged 12,
of this city, was operated on for ap-
pendicitis.

Death at State Hospital.

Mrs. Fannie Hawks, of Warren
county, died on the 5th inst., at the
Western State Hospital of tuberculo-
sis, aged 32 years. The remains
were shipped to Bowling Green.

ROOSEVELT CRAWLS DOWN AND RETURNS TO G. O. P.

Mention of Roosevelt's Name in G. O. P. Convention Brings
Half Minute Demonstration—Will Take His Medicine
and Support Hughes as Nominee of Both Parties.

ALL OVER BUT THE WALLOPING THEY ARE TO GET IN NOVEMBER

Suffrage For Women is Endorsed by Republicans but Right
of Each State to Settle Question For Itself is Affirmed
—Full Platform Adopted as Proposed.

Chicago, Ill., June 9.—The repub-
lican presidential nominee will be
Justice Hughes. He will be endorsed
by Theodore Roosevelt. The pro-
gressive party will be wiped off the
face of the map. Roosevelt has noti-
fied his leaders here he will absolutely
refuse to run as a progressive or in-
dependent candidate for president.

The republican convention last
night accepted the invitation of the
progressive convention to a confer-
ence for harmony. The proposal to
that end, adopted first in the progres-
sive convention, was received in the
republican convention and adopted
with a few scattering "noes," and
virtually no demonstration.

Senator Reed Smoot, of Utah; Sen-
ator William E. Borah, of Idaho;
former Senator W. Murray Crane, of
Massachusetts; Nicholas Murray But-
ler, of the New York delegation, and
former Representative A. B. Johnson,
of Ironton, Ohio, were appointed as
the republican conference committee.
They at once began arrangements for
meeting the progressives.

Chairman Robins appointed as
members of the progressive confer-
ence committee George W. Perkins,
Governor Hiram Johnson, Horace
Wilkins, Charles J. Bonaparte and
John M. Parker. No limit of time
has been set.

The complexion of the republican
committee was generally regarded as
one that would not accept Col. Roose-
velt for the presidential nomination
but on the other hand would not in-
sist upon an agreement on Justice
Hughes. The whole effect of the de-
velopment was to throw the republi-
can nomination into uncertainty until
Roosevelt was later heard from.

PROGRESS IS ONLY REPORT.

The conferees adjourned at 12:30 a.
m., after a two hour session, with the
announcement that they would not
meet again until after the sessions of
the two conventions today. The only
statement given out was that "we re-
port progress."

This was the situation as epitomized
by one of the conferees after the con-
ference had been in session a little
more than an hour.

The utmost harmony had reigned
in the meeting.
Republicans were impressed with
the apparent desire of the progres-
sives to effect an agreement.

PLATFORM IS ADOPTED.

The other principal developments
in the republican convention were the
adoption of the platform as reported

by the resolution committee headed
by Senator Lodge; a half minute de-
monstration for Col. Roosevelt when
his name was mentioned for the first
time in the convention; the perfection
of the permanent organization and
adjournment until 11 o'clock tomor-
row morning.

Senator Lodge mentioned Col.
Roosevelt's name in reading the Phil-
ippine plank which declares for the
policy inaugurated by McKinley and
continued by Roosevelt. The demon-
stration that followed was principally
in the galleries, although it was joined
by some delegates on the floor. Sen-
ator Lodge well identified as a
personal friend of the colonel's smiled
and waited and it subsided in less
than a minute by the watch.

SUFFRAGE INCIDENT FEATURE.

The outstanding incident of the
day's session came with Senator
Lodge's announcement of the woman
suffrage plank.

"The republican party reaffirming
its faith in the government of the peo-
ple, by the people and for the people
as a measure of justice to one-half
the adult people of this country favors
the extension of suffrage to women,"
read the senator and then he paused
while the suffragists began their
demonstration.

"But," continued Senator Lodge
when the noise subsided, "it recog-
nizes the right of each state to settle
this question for itself."

There were roars of laughter at
this qualifying phrase to what the
suffragists had celebrated as a clear
cut victory and the convention hall
rang with the demonstration of those
who approved the qualification.

Chairman Harding of the republican
convention said that unless he is over-
ruled, he will ask the convention to
go straight through with nominating
speeches as soon as the convention
convenes this morning and that all
second speeches be made after the
nominating addresses have been con-
cluded and then only by arrangement
with the chairman.

About the only thing that can inter-
fere with this program, he said,
would be a report from the peace
conference committee. According to
present plans there will be no time
limit placed on nominating speeches.
Seconding speeches will be limited to
five minutes each.

Nominating speeches were being
made at 3 o'clock, Whitman starting
with Hughes.

BULLET FLATTENS AGAINST SKULL

And Victim of Leaden Missile
is Not Seriously
Wounded.

Reuben Wright is in jail, charged
with shooting and wounding with in-
tent to kill Sam Coleman, and the affair
will be presented to the grand jury,
now in session. The trouble occurred
a few miles west of the city Wednes-
day afternoon. Coleman was shot in
the back of the head, the ball flatten-
ing out against the skull. The wound
is not considered a serious one. The
shooting was done at close range,
with a .32 caliber revolver.

THE TALK OF ORGANIZATION

Reasons Given Why Tobacco
Growers Should Act In
Concert.

It is observed that there is a move-
ment on foot to organize the tobacco
growers of Christian county and the
Kentuckian takes great pleasure in
tendering its columns for the further-
ance of a movement so praiseworthy
and necessary to the best interest of
our growers. The fact should not be
lost sight of for a moment that all
wealth is a product, even though in-
directly of either the soil, the forest
or the mines. Therefore in this day
of rapid strides in money making too
much attention cannot be devoted to
the subject of keeping the affairs of
the agricultural class abreast all oth-
ers. It is too often the case that hard
times are commented upon by the
manufacturer and merchant without
being understood to be directly at-
tributable to the fact that the farmer
is getting nothing for the sweat and
toil he has put forth and his invest-
ment in land, tools and teams. At
the prices which prevailed during the
sale of a very large per cent. of the
last two crops of tobacco, there has
been little or nothing to suggest either
profit or progress, but on the con-
trary the tobacco grower who came
out even was lucky indeed. This
occurred at a time when it must have
been perfectly apparent to everybody
that the demand for tobacco would be
greater than at any time in recent
years on account of the fact that the
European countries that are our
heavy patrons, themselves producers
from their own soils, of more tobacco
than they purchase annually from us,
being unable to produce tobacco dur-
ing the existence of the war. Where
such countries are not devastated by
the frightful progress of war the gov-
ernments are directing the production
of such crops as will sustain life. In-
stead of tobacco selling at the ruin-
ously low prices which prevailed
early in the last season it should by
every commercial law or system have
sold for double the price actually
realized. If anything else than the
prices which prevailed early in the
present sale season is necessary to
convince the grower that supply and
demand is not the factor in the price
making and if anything else than the
same price is necessary to convince
the grower that if he does not take an
active part in the making of reason-
able prices for his own product that
nobody else will and that in such
event good prices are exceedingly im-
probable, we do not understand his
basis of reasoning. It simply is not
possible to even approach a solution
of this momentous question in any
other way than by organization.

Some thirty prominent and highly
esteemed Christian county farmers
have taken the initiative in this hu-
mane movement for organization and it
is to be hoped that every other far-
mer in the county will cheerfully and
earnestly rally to their support. The
Planters Protective Association was
once thoroughly established among
us and no one can gainsay the fact
that it came among us at the time of
the growers' deepest despondence,
almost doubling the price of tobacco
in an astonishingly short time. To
be sure it was crude at that time, and
not a few complaints were suggested,
but it served a great purpose in
greatly advancing the price of toba-
cco. We are informed that the aggre-
gate of the business done by it in the
seemingly few years of its existence
was approximately \$52,000,000.00
To those who recall the fact that the
average price for tobacco was less
than four cents and that in an as-
tonishingly short time it was nine or
ten cents it must be apparent the as-
sociation has added something like
\$25,000,000.00 to the total wealth of
the dark tobacco district of Kentucky
and Tennessee, comprising about
thirty counties. Is anything else
necessary to commence such an or-
ganization? Had not one better ask
how can any grower afford not to
sustain it?

Lieut. Gov. W. L. Harding has been nominated for Governor by the Iowa Republicans.

The jury to try Wm. H. Orpet for the murder of his sweetheart at Waukegan, Ill., has at last been completed.

In their new offensive, the Russians claimed to have captured 40,000 German prisoners, 900 of them officers.

As a mere instance of the Republican gathering in Chicago, the city went Democratic Monday by 30,000 in the judicial elections.

Dr. M. A. Jenkins has changed some since he left here in 1909. He has cut off his moustache and taken on about 50 pounds more of flesh.

Attracted by the screams of her baby, playing near her house, Mrs. Asa Davis, of Somerset, found a big black snake wrapped around the infant's legs. She killed the reptile.

Yuan Shi Kai seems to have died just at the right time to keep peace in China. And it is not altogether certain that he wasn't assisted some in shuffling off. "For ways that are dark and tricks that are vain, the heathen Chinese is peculiar."

Suit to test the right of County Judges to suspend fines during good behavior or at the pleasure of the court probably will be filed against Circuit Judge W. R. Shackelford for \$1,597.90 fines assessed by him while county judge. He denied liability for the amounts after an inspection by Inspector and Examiner Nat B. Sewell and agreed to have his liability tested by suit.

Few wars of modern times have been ended by the leaders who were prominent in the beginning. The French revolution developed a lieutenant of artillery who met the crisis in his country. The American civil war brought to the front an obscure officer who won by bull dog persistence. The death of Kitchener may bring to leadership a man who will abandon the Fabian policy, and use England's great army in an offensive movement to hasten the end of the war. The great organizer has done his work well. What England needs now is a fighter.

The Western storms have run up a death list in excess of 150 persons by additional reports from communities in five states which were swept by tornadoes. Wednesday the death of 126 persons in Arkansas, Missouri, Mississippi, Tennessee and Illinois had been reported with a number of others missing and believed dead, and several hundred injured, some of them so seriously that little hope is entertained for their recovery. Only 34 survivors have been accounted for in checking up the passenger list and crew of the Mississippi river packet Eleonore, which overturned 12 miles above Memphis, when struck by the force of the storm. At least 30 persons are believed to have perished with the Eleonore, most of them negro deckhands.

Effect of Gas Tank Explosion.
It is well known that illuminating gas is explosive, though it is difficult to say just how great would be the explosive effect. It is impossible to calculate and only experience and observation would afford any indication. There are not at hand any data which will determine the effect of an explosion of a gas tank either on buildings close by or at a distance.

Dread Of An Operation.

N. Manches er, Ind.—Mrs. Eva Bashore, of this place, says: "I suffered female misery of every description. Two doctors attended me, and advised an operation. I lost weight until I weighed only ninety pounds. I dreaded an operation, and, instead, began to take Cardui. In a short time, I gained 25 pounds, and feel as well as I ever did. Cardui, I am sure, saved my life." Cardui is today used in thousands of homes, where it relieves pain and brings back strength and ambition. It is a woman's medicine, for woman's ailments, and you are urged to try it for your troubles. Ask your druggist. He will tell you about Cardui.—Advertiser.

Lemon Rub The Latest.

The last impression of a traveler leaving Germany nowadays is likely to be that of a "lemon rub"—a measure intended to bring to light, or efface, as the case may be, such maps and military information as may have been entrusted to the suspect's skin. According to the German frontier survey officers the practice has been common enough, but recently great vigilance at all border points has discouraged such a method of getting information out of the country.

The purpose of the lemon rub is to develop the drawing or writing upon the skin, or to remove the chemical which through the action of another agent would become visible. Lemon juice, or principal constituent, citric acid, will do this without injuring the skin or causing pain.

At a frontier point, the name of which was not given, 127 persons were detained and treated to the lemon rub in March, and one of the officers said that a number of long term imprisonments had resulted. He also explained that while the actual spying was being done by men, the information obtained was in most cases carried out of the country by women.

Philip.

Philip, the Macedonian king, while drowsy with wine was trying a case and the prisoner after sentence was pronounced, exclaimed, "I appeal." "And to whom do you appeal?" inquired the astonished monarch. "I appeal from Philip drunk to Philip sober," replied the prisoner, and the king granted the request and at a rehearing gave the prisoner his liberty.

The people drowsy with the wine of discord oftentimes pronounce a verdict on public questions which they reverse in their more calm and deliberate moments. The next best thing to making no mistakes is to correct them.

Masculine and Feminine Sins.
Hardly any priest, hardly any physician, would agree that women are better morally than men. There are some kinds of sin which men commit more readily than women. Such are the sins of lust, and possibly those of anger. But there are others where men and women seem to offend about equally, the sins of gluttony, sloth, and covetousness. And of the sins of pride and envy, one might call them pre-eminently feminine sins.—Bernard I. Bell, in the Atlantic.

Birth After Death.

The birth of a child half an hour after its mother, Mrs. Mary Fuchera, had met a violent death by a fall from a window in Brooklyn creates one of the most remarkable surgical records that have been made in many years according to the statement made by one of the officials of the Long Island College Hospital, says the New York World. The child was saved by a hasty cesarian operation by Dr. Frank Ling. For two hours the physician worked over the little body in which the pulse still was beating faintly. He blew his own breath into the child's mouth and exhaled it again by artificial respiration. Finally there was an answering breath and a cry, and he took the child to the hospital.

There it was found to be a 7½ pound baby, normal and well developed. It is strong and probably will live.

At the hospital it was said that no case just like that could be remembered in the history of medicine in Brooklyn, and it was intimated that while the officials had not yet had time to do anything for the young doctor, he will at least come in for warm commendation for his alertness and ability. The baby is named Frank for the man to whom he owes his life.

MERITS OF FASTNACHT CAKE

Food Specialty That Ranks With Boston's Baked Beans—Fixture for Lenten Fast.

True it is that half the world does not know what the other half eats. Here we have slipped quietly into another lenten season, but how many of you ate a Fastnacht cake?

Didn't know there was such a thing, eh? But they know over in York county, where the bakers in the city of York alone turned out 315,000 cakes for Shrove Tuesday, writes "Girard" in Philadelphia Ledger. That was four Fastnachts for every inhabitant; and I suspect that everybody old enough to ask or fight for his Fastnachts got his average.

In Pennsylvania Dutch communities the Fastnacht cake is quite as much of a fixture for the fast on the night before Ash Wednesday as baked beans are at a New England society dinner or roast turkey at Thanksgiving.

A son of York ventures to remind me that "there's a difference between a doughnut and a Fastnacht." I should think there is, and also a difference between a brindle cow and a zebra. A York baker who offered the unusual doughnut of commerce in lieu of Fastnacht would be fried in the fat where the German cakes should have been swimming.

A Fastnacht has its own individual merits quite distinct from the doughnut and its haughty cousin, the cruller. But when you have once eaten the Fastnacht you will highly approve the York county methods of celebrating the feast.

TOLD THE EXACT TRUTH.

"Miss Brown told me that you paid her such a charming compliment the other evening," said Mrs. Coddington to her husband, "something about her being pretty. The poor girl was so pleased. I don't see how you men can be so untruthful."

"I should think you'd know by this time that I'm never untruthful," said Mr. Coddington reproachfully. "I said she was just as pretty as she could be, and so she was."—New York Times.

POINT OF VIEW.

Wife (during the spat)—Come, dear, we have no occasion to quarrel in this manner. Of course I do some very foolish things at times—and so do you. You'll admit that, will you not?

Husband—Certainly I'll admit that you do. That's what I've said all along.

Wife—Wretch! I'm going home to mother.

THINGS WILL TAKE A TURN.

"For about three months after he graduates," remarked the sage, "the college youth expresses a willingness to consider offers of remunerative positions."

"And then what?" queried the young man.

"After that," continued the local philosopher, "he begins to hustle for a job."

DOUBTFUL RECEPTION.

"So you once met the king of a cannibal island on your travels?"

"Yes," replied the fat man.

"Did you enjoy the experience?"

"I can't say that I did. He seemed to like me, but I didn't know whether that was due to a friendly interest or was merely the manifestation of a debased appetite."

IN AGREEMENT.

"How is your boy Josh getting along with his employer?"

"Well," replied Farmer Cornet, "they have come to an agreement at last. Josh said he was going to quit an' the boss, he said so, too."

POSSIBLE EXPLANATION.

Mrs. Goodwin—I was surprised at our minister this morning. He failed to stick to his text.

Goodwin—Perhaps, my dear, he has come to the conclusion that scattered shot hits the most birds.

VERY OFTEN.

"X is an unknown quantity, isn't it, mamma?"

"It is to your father when I ask him to give me one."

HE REMAINED UNTIL LATE.

"Caroline—I saw an awfully pretty girl today!

Carroll—You've been looking in the mirror again.—Judge.

3 IN ONE

3-in-One is a light, pure oil compound that never gums. 3-in-One lubricates perfectly sewing machines, typewriters, bicycles, locks, clocks, guns, lawnmowers—everything that ever needs oiling in your home or office. No grease. No acid. A little 3-in-One on a soft cloth cleans and polishes perfectly all veneered or varnished furniture and woodwork. Sprinkled on a yard of black cheesecloth it makes an ideal Dustless Dusting Cloth. 3-in-One absolutely prevents rust on gun barrels, auto fixtures, bath room fixtures, gas ranges, everything metal, indoors or out, in any climate. It sinks into the unseen metal pores and forms a protecting "overcoat" which stays on. Free—3-in-One—Free. Write today for generous free bottle and the 3-in-One Dictionary of hundreds of uses. 3-in-One is sold in all good stores in 3-oz bottles; 10c (1 oz.), 25c (3 oz.), 50c (8 oz., 1/2 pint). GOOD CITIZEN PASSES AWAY

Thomas M. Butler died Wednesday afternoon at his home a few miles east of the city. He had been in declining health for several months. Death was due to hardening of the arteries. He was the father of Mrs. J. P. Myers and was a most excellent citizen, liked by every one who knew him. The remains were taken to Fredonia yesterday, and the interment took place on a farm of deceased, near that place.

PURELY PERSONAL.

Miss Stella White, of Sturgis, has returned home after visiting relatives here and at Howell, Ky.

Mrs. W. T. Cooper and Miss Sara Cooper, have returned from Cerulean, where they went for the benefit of Miss Cooper's health.

Edward Quarles, of Ft. Worth, Tex., will return home to-night after a visit to his father, J. S. Quarles.

Miss Florine Rives has returned from Randolph-Macon College to spend vacation with her parents.

So far as known R. J. Caruthers and E. B. Bassett are the only Hopkinsville visitors to the Chicago convention.

Mr. Hilson Peal and little daughters, Mamie and Eunice, of Cadiz, spent Thursday and Friday in the city.

Calvin M. Thompson, Jr., is back from Georgetown.

Henry Abbitt is home from the University of Virginia.

Mr. and Mrs. Bailey Waller have returned from Georgetown College, where their son, Herndon, graduated. He will return home Monday.

MISSIONARY MEETING.

The W. M. S. of Olivet church held its monthly meeting at the church May twenty-fifth.

Mrs. Lee W. Allen conducted the devotional exercises with ease and grace, reading the "Parable of the Talents."

Mrs. Stith, a visitor, offered an earnest prayer for just such blessings as were needed upon the Society, the church, the community and God's servants wherever found till she seemed very near and ready to answer the appeal.

Mrs. W. E. Allen was called on for a talk on "Money and Missions." She did her best as did Mrs. Forest Giles on "Our Response to Our Responsibility."

The Bible study "Stewardship" was handled in a clear, concise and able manner by Mrs. McFarland, who has just finished the training course at the Seminary.

The meeting was exceedingly interesting, as each one present had thought on the subject and talked freely.

The program closed with song and prayer and the meeting was handed over to the President.

Business was then attended to. The name of one new member was enrolled also one new one at the preceding meeting.

The Society paid off the Judson Centennial Pledge with ease, and hopes to meet the year's apportionment without trouble. It is doing well but not what it might, could or should do, if each member realized that its success depended upon her. A few of the members have been studying the King's Highway and will complete it this week, and each one who attended thinks it has been time well spent in the study.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice.—It will be confidential.

PRETTY WEDDING.

The wedding of Miss Bess Haynes, of Howell, Kentucky, and Mr. Carey Bandy, of Franklin, Kentucky, which took place Thursday afternoon, June 1, at the home of the bride's parents, Dr. and Mrs. W. A. Haynes, was one of the prettiest ever seen in Howell. The Rev. C. E. Hutchinson, of Fairview, an uncle of the bride, performed the ceremony, assisted by the Rev. M. M. McFarland, pastor of the Olivet Baptist Church.

The color scheme of green and white was artistically carried out in the decorations. Vines and potted green plants were used throughout.

Just before the happy couple made their way to the parlor, Miss Elizabeth Pendleton sang in her rich, clear voice, "Love's Coronation."

Miss Annie Adams played the wedding march by Mendelssohn. Miss Ruth Hutchinson, a niece of the bride, dressed in pink, and Miss Margaret Dixon, dressed in pale blue, bore baskets of flowers.

Miss Louise Haynes, a sister of the bride, was train bearer.

The bride wore a silk marquisette taffeta and real lace, with veil. She carried a bridal bouquet of white roses.

The groom wore the conventional afternoon attire.

Miss Louise Haynes, the train bearer, wore a white net with white satin trimmings.

The house and yard were filled with guests and relatives of the bride and groom.

Shortly after the ceremony Mr. and Mrs. Bandy were motored to Hopkinsville, where they took the 5:30 train for a few days' stay in Nashville. They will make their home for the summer in Bowling Green.

Mrs. Bandy is the eldest daughter of Dr. and Mrs. Haynes. She is one of the brightest and most talented young ladies of South Christian. She is very prominent in church circles, being the organist of the Olivet Baptist Church, of which she is a member.

Mr. Bandy is a young man of sterling worth, and is highly esteemed by all who know him.

The many handsome and expensive presents attested their wide popularity.

We wish them all the happiness and prosperity possible. May they always be as happy as their friends expect them to be.

WAR! What Is It. All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor glistening just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time; over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an ineffable impression.

Your War News Clarified

USEFUL IN MEDICAL WORK

Fluid That Makes the Body Transparent is a Discovery Considered of Great Value.

A new method of giving medical students instruction which, it is said, will largely obviate the necessity of dissection, will be put into practice at the Hahnemann Medical College, Philadelphia, at the beginning of the next term.

Physicians and surgeons connected with the department of anatomy are now perfecting the process, which originates through the recent discovery by a French scientist of a fluid by the use of which the human body can be rendered transparent.

The fluid, which is composed of several oils, turns the flesh into a sort of transparent jelly when injected, enabling the student to study the veins, muscles, and bones far better. It is asserted, than if they restored to the dissecting knife. It is said to be one of the most valuable discoveries in medical science of late years.

MUCH COTTON IN BIG SHELLS

Enormous Amount of Material is Needed in the Operation of European Belligerents.

Every shot fired from one of the fifteen-inch guns of the British battleship Queen Elizabeth, or one of the German or Austrian seventeen-inch mortars, means the expenditure of 400 pounds of raw cotton. Cotton is one of the basic ingredients of all high explosives. No substitute can or has been found, although German chemists are exerting the utmost of their ingenuity to provide something that will take the place of the cotton boll.

It has been estimated that 1,000 tons of raw cotton are shot away every day in the world war by the German and Austrian armies. The charge for a German seventeen-inch howitzer shell, 400 pounds, would provide ammunition for 400 shots from a field gun or 80,000 rounds from an army rifle.

"MOVIES" FOR LECTURES.

In illustrating a lecture in which armor plate and armor piercing projectiles were discussed not long ago at the British Institution of Mechanical Engineers, an interesting employment was made of motion pictures.

A number of drawings in which a shell was shown leaving a gun, hitting a plate of armor, the cap then breaking into pieces, the projectile passing through the metal protection and subsequently detonating, were filmed.

The picture when projected on a screen showed graphically what original photographs could not have portrayed. The drawings had been carefully executed and the resulting effect was good.

FARM ANIMALS

SWINE REQUIRES SOME GRAIN

Expert at University Farm Gives Results of Three Tests of Feeding Corn to Hogs.

Can you afford to feed grain to your hogs this summer?

R. C. Ashby, in charge of swine at University farm, St. Paul, says you cannot afford to grow them without grain. He gives the results of three tests of feeding corn to hogs on rape pasture to prove his claim.

Six 50-pound pigs were put in each of three lots, about a quarter of an acre in size, on rape pasture. The pigs in the first lot were fed a half ration—2 per cent of corn; that is, two pounds of corn for every one hundred pounds of live weight. Those in the second lot were fed three pounds of corn for every one hundred pounds of pig; that is 3 per cent. The pigs in the third lot were fed a full ration, 4 per cent of corn. The pigs were on good rape pasture eleven weeks—from July 10 to September 26. Their gains were counted as worth 7 cents a pound and corn was charged at 55 cents a bushel.

The returns paid for the rape pasture an acre were: Lot No. 1, \$52.80; lot No. 2, \$66.72; lot No. 3, \$65.60. If the corn is figured at 75 cents a bushel, the balance for the pasture on the three lots would be \$43.16, \$51.36 and \$45.60, respectively.

Without the feeding of grain, the pigs would have gained little, Mr. Ashby says. Rape may be expected to pay \$50 an acre as pasture only with the proper feeding of grain.

FEED TROUGH IS CONVENIENT

Piece of Galvanized Iron and Few Boards Make Handy Device for Use at Farrowing Time.

By securing a piece of galvanized iron, 18 by 22 inches, at the hardware store at a cost of not to exceed 20 cents, and a piece of board 1 by 6 inches and 5 feet long, a trough can be made that will prove very convenient at farrowing time, says a North Dakota writer in the Farmer. Cut the 5-foot board into four parts, two 18 inches long, each, for the ends, and the remaining two cut into semi-

Light Trough for Hogs.

circles 10 inches in diameter. Nail these pieces together, using the semi-circles for the form of the trough. The sheet iron is then bent into these forms to make the body of the trough. A 1 by 2-inch strip nailed between the ends close to the outside edge of the iron, to which it may be tacked, adds greatly to the strength of the trough. The above makes a very convenient, light and economical trough for farrowing time and has given the writer very satisfactory results.

BEST ANIMALS FOR BREEDING

Get Boar Acquainted With Surroundings Before Using Him—Select Sows From Spring Litters.

Select the boar for use before you are ready to use him. Get him acclimated to your surroundings and method of feeding and care. Never use a young boar until he is past ten months of age if you want large, strong litters. Some breeders claim by using a young boar on mature sows one can produce hogs of greater size when a year old.

Select the breeding sows from early spring litters when they are six months old. One can form an opinion which ones are most likely to prove long-bodied, good-formed, of quiet disposition, good feeders and size rather than put on an excess of fat. Breed the gilt when about ten months old and if she proves herself a good breeder, raising uniform litters of strong, healthy pigs, keep her for several years, or as long as she is profitable.

PASTURE SHEEP WITH COWS

Great Objection Is That Former Nibble Grass So Closely That the Latter Are Starved.

The great objection to pasturing sheep with cows is the fact that the sheep nibble the grass so close that the cows cannot get a bite.

This would not be very troublesome if there was plenty of grass and the pastures were abundant.

In dry weather where pastures are thin and overstocked the sheep would nearly starve the cattle out, and prevent their getting a fair share of the grass.

They Saw The Point.

Devout Roman Catholics often enjoy a whimsical joke on themselves, as this story from a good-humored ecclesiastic indicates: "Lay readers are sometimes employed to read aloud to an assembly of the religious in a monastery. In one such case the reader (not a learned man) was reading an account of missionary work. He came to this sentence: 'So the Jesuit returned from China with his Mes.' He rendered it thus: 'So the Jesu returned from China with his missus.' The hearty roars of laughter from his brothers would have done credit to a group of the worldly-minded."

ROAD BUILDING

MANAGEMENT OF GOOD ROADS

Specialists of Department of Agriculture Place Responsibility for Highway Defects.

Where a county builds a good road and soon lets it become rutty, washed out or uneven, who or what is principally to blame? As a result of a study of conditions in a number of counties, road specialists of the United States department of agriculture are inclined to place the responsibility upon the following defects in road management, some or all of which are found in all counties where good roads are not properly repaired and maintained:

1. County boards, although having full administrative authority, appear not to attach to their official action in road matters the importance or legal effect which it should have.
2. County boards do not generally have sufficient accounting control of

Good Road in New York.

road funds to know what is available for any particular project, where funds have been or where existing balances are to be expended.

3. Lack of any systematic practice in handling funds among most counties makes it very difficult to carry out over even a single year any persistent maintenance policy, because funds of legally obligated for maintenance purposes are not protected against sporadic and irregular drafts for miscellaneous purposes. The greatest likelihood consequently exists everywhere that there will be no balance in the maintenance fund in the last half or third of the year, although only a part of the fund allotted may have been spent.

4. Local labor available for maintenance work is made dissatisfied by the constant, unintelligent and unfavorable criticism of those using the road.

5. Maintenance continuing over a period of years—the ultimate indispensable condition of effective maintenance—is jeopardized by lack of accounting control that will prevent spending next year's current income in this year.

6. The lack of skilled supervision in construction and the effect of this in increasing the cost or in making effective maintenance impossibly expensive is everywhere seen.

7. The county authorities are commonly opposed to following suggestions for maintenance that involve tying up road funds in any way, such as purchasing materials in advance to store along the road for making repairs or maintaining the road surface.

MUCH WASTE OF FARM LANDS

Suggested by Country Gentleman That Recklessly Heavy Maintenance Cost Be Avoided.

The Country Gentleman makes the sensible suggestion that a prodigal waste of land and a recklessly heavy maintenance cost be avoided by American roadmakers. Upon a four-rod government highway "one dozen farm wagons could be, by a little crowding, set side by side" and each mile of government highway contains eight acres of land, "much of it good land, capable of growing 500 bushels of corn," while thousands of miles of the best highways of France, Germany and England are but one rod wide.

The Country Gentleman objects to Iowa devoting 416,000 acres of "the best farming land in the world" to growing a sufficient assortment of weeds to seed the farms that lie along the state's 104,000 miles of public road.

It may be added that a well-maintained road a rod or a rod and a half wide, with trees along either side, is much more agreeable to drive over than a road three or four rods wide, which can never be shaded and must always be an intolerably hot sun reflector during summer. Left unrolled, it is glaring and trying to the eyes. Oiled, it gives off heat like a stove.—Louisville Courier-Journal.

Benefits of Good Roads.

By furnishing better means of communication, good roads will add to the selling price of farm products and in every way will contribute to the comfort and happiness of the people. Then, furthermore, we can have a good system of consolidated schools only where we have good roads.

Most Valuable Roads.

Good wagon roads running into the country are more valuable to a town than an extra railroad running through.
